Team Physician Athletic Training Room / Event Coverage

Physician Scheduling

Student-Athletes needing referral for general medical conditions should follow the policies and procedures detailed in UNCG Student Health Services Section, and those needing orthopedic referral should see a UNCG Team orthopedist in the athletic training room or Piedmont Orthopedics, as appropriate.

UNCG Team Physicians hold a clinic in the Athletic Training Room's Doctor's Office one day per week. Generally, Orthopedic clinic occurs on Monday at 5:30pm; while, general medical clinic is on Tuesday at 5:30pm. Student-Athletes who are to be seen in the athletic training room should have their names placed on the dry-erase board on the Doctor's Office Door. Student-Athletes will be seen on a first-come, first-served basis.

UNCG Team Physicians are on-call throughout the week to see student-athletes should the need arise. Staff Athletic Trainers should contact Piedmont Orthopedics to have the "on-call" physician paged after hours and on weekends.

UNCG Team Physicians are on site for Men's and Women's Soccer and Basketball. Where physician presence is required at a competition, the staff athletic trainer in charge of scheduling should coordinate coverage and communicate the schedule to the parties involved.
